Description Information

Who are you trying to contact? The White House and President Obama

Description Dear Mr. President, I & my husband are residents of Spanish Vlg subdivision in Bridgeton MO, located at ground zero of the West Lake Landfill/Bridgeton Landfill Superfund Site. 4+ years we have endured horrendous stench events & denials from the PRP, Republic Svcs and the uncertainty of what if & when the subsurface smoldering event will impact the radwaste. Coupled w/EPA Reg 7's conflicting report from their ORD and reports & docs from the NRC. We're languishing in govt red tape! Our quality of life has been greatly reduced bc of the uncertainty w/these landfills. Our property values have plummeted. My husband & I worked for 30 yrs, paying bills,taxes,union dues,trying to provide a better quality of life & opportunity to our family & plans for our retirement. Yet all of our efforts were not enough to realize our hopes & dreams of a fulfilling retirement. All the fault lies on the shoulders of our govt agencies passing the toxic waste buck from one site to another since its creation til it landed/illegally dumped at West Lake in the 70s. We're the run around from EPA Reg 7. We have attempted contact of Gina McCarthy via social media to no avail. We are becoming desperate, disillusioned, angry, frustrated. Why do we have to endure this lifestyle through no fault of our own? We had no idea that this area had a superfund site. Born in St. Louis and lived in this region all of our lives w/out ever hearing about this toxic waste. A dirty little secret. We can't plan outdoor events or open our windows because of the uncertainty of when it will stench. Why do we have to continue to endure these conditions? Bc an \$8.4b corp refuses to buyout a few hundred homes at ground zero & EPA refuses to provide us "property assurance programs"? Never did I ever think that this injustice would happen to me. No one cares about us but us! We're considered expendable, collateral damage! Our Lives Matter! Our Hopes and Dreams Matter! Our Reduced Property Values Matter! Restore our faith in our government and federal electeds by helping us, Mr. President. We have exhausted all avenues, state, local, senators, congressman. You are our last hope. We pray you won't let us down. Thank you for taking some of your very valuable time to address my/many others' concerns. Pls check out West Lake Landfill facebook group as well as Cold Water Creek - just the facts facebook group. These should be very helpful in giving you some background info.
